

## **About:**

### **1. What is FinLocale?**

Finlocale is a peer to peer crypto marketplace where the buyers and sellers connect, exchange bitcoins through secure escrow and private online chat. Its unlimited payment type capabilities bring buyers and sellers from around the globe with any possible world payment type, enable them do crypto currency exchange. It is considered to be the most profitable platform for merchants and vendors.

### **2. How is different from competitors?**

There are only 2 prominent competitors similar to our features. There is high scope of improvement needed for new payment additions, business development, real customer service, liquidity & security.

### **3. How is Finlocale similar to Coinstar?**

In Finlocale, similar to Coinstar, giftcards and other digital assets can be exchanged for bitcoin.

### **4. How is market-cap for P2P?**

The current situation is 2 major players do around 5 billion USD in turn over and 50 MM \$ in revenue.

Finlocale aims to capture 50% of the total p2p market place in 3 to 5 years. Also, our market or business analysis team will look into deep payment type analysis around the globe to come with new sub business model. So

Finlocale is aiming for 5 to 10 times of revenue of the major players as of now.

## **5. How is the project with govt regulations and restrictions?**

Finlocale is a market place where real fiat exchanges happen between buyers and sellers only. In the past, P2P model survives even in strong regulatory and expected in future.
